Detailed Instructions

 These instructions are made for 2010+ Mazda 3 Hatchback

1. Removing Factory Brake Light

- a) **Remove the 3rd brake light cover.** Open the rear hatchback and from inside the car pull the cover off the top of the rear hatch back. (Shown in **Figure 1a**)

 The cover requires a bit of force. Be sure not to bend or damage the cover when removing it.

Figure 1a

- b) **Remove the lens on the 3rd brake light.** Using a flat head screwdriver, pry the two tabs out slightly (circled in **Figure 1c**) and pull up on the lens. It will come out easily. **Figure 1b** shows the cover and **Figure 1c** shows the corner you will pry on.

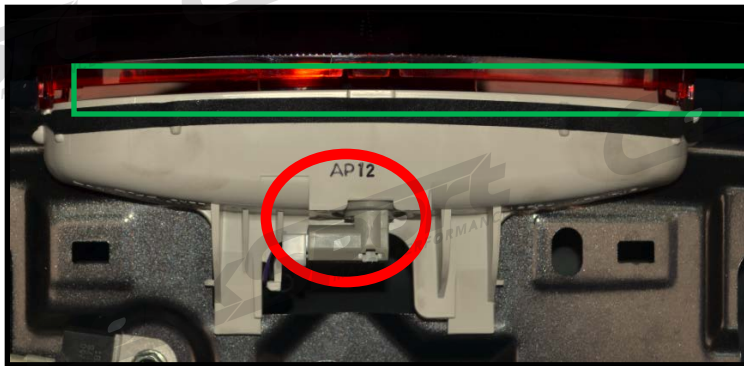

Figure 1b

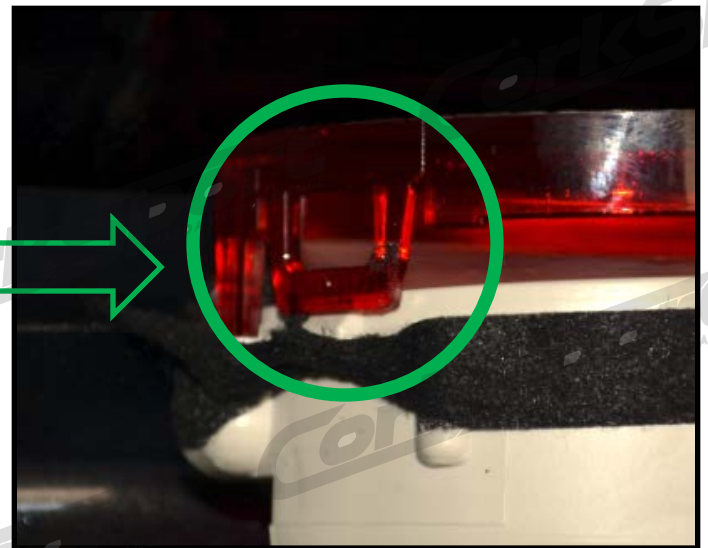

Figure 1c

- c) **Remove the plug** (circled in **Figure 1b**). Twist the plug away from you and it will come out with the bulb attached.
- d) **Remove the Light bulb.** Twist the light bulb to remove it.

2. Installing the CorkSport LED 3rd Brake Light

- a) **Install the CorkSport LED 3rd brake light.** Place the LED brake light in through the top letting the black and red wires hang through the opening the bulb came out of (shown in **Figure 2a**). Making sure the tabs are aligned, push down on the LED until it clips into place.

Figure 2a

2. Installing the CorkSport LED 3rd Brake Light Continued...

- b) Plug the two wires into the grey connector (circled in **Figure 2a**).

 The LED's will only work when the plug is connected correctly. Test the brake light with everything plugged together and verify that it works. If it does not illuminate, unplug the Grey connector and the wires coming from the LED, then reverse the wiring and check that the LED illuminates.

- c) Reinsert the grey connector into the 3rd brake light assembly (shown in **Figure 2b**).

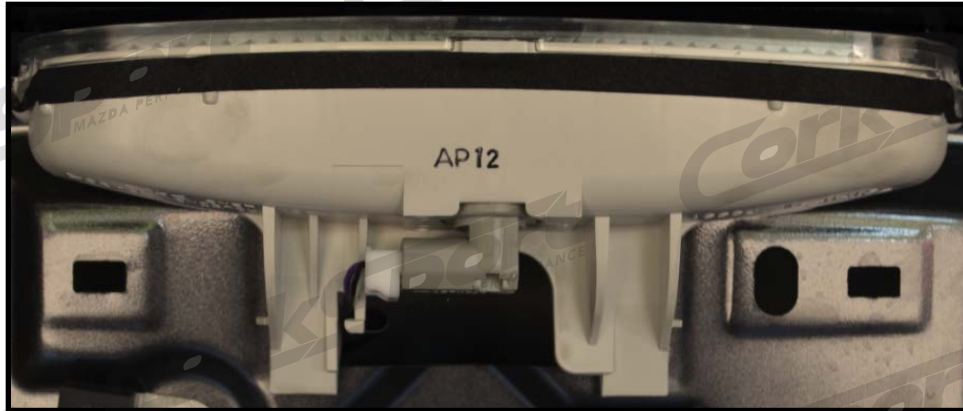

Figure 2b

- d) Reconnect the plastic from the hatch. The plastic should push down and clip in easily with a pop.

This completes the installation of your LED Mazda 3 Hatchback 3rd brakelight. Check out our [knowledgebase](#) for additional install information

What's Next:

[CorkSport License Plate Bracket Relocation Kit For 2010+ Mazda 3](#)

Give your 2010+ Mazda 3 a visual boost and improve **airflow** with the CorkSport License Plate Relocation Kit. By offsetting your factory license plate and moving it to the drivers side, the CorkSport license plate relocation kit will allow for better airflow and improve the overall look of your 2010+ mazda 3.

[CorkSport LED Fog Light Kit](#)

Add a functional modern style to your Mazda with the CorkSport LED Fog Lighting Kit. With an output similar to that of most HID light kits in the 6000k color range, the CorkSport LED Fog kit replaces the fog lights with the modern sleek look of blue/white LED's.
